C A T A L O G

We were inspired by the idea of bringing ancient tradition of mechanics back to life.

Yet we wanted to create a project that will bring something new to the world.

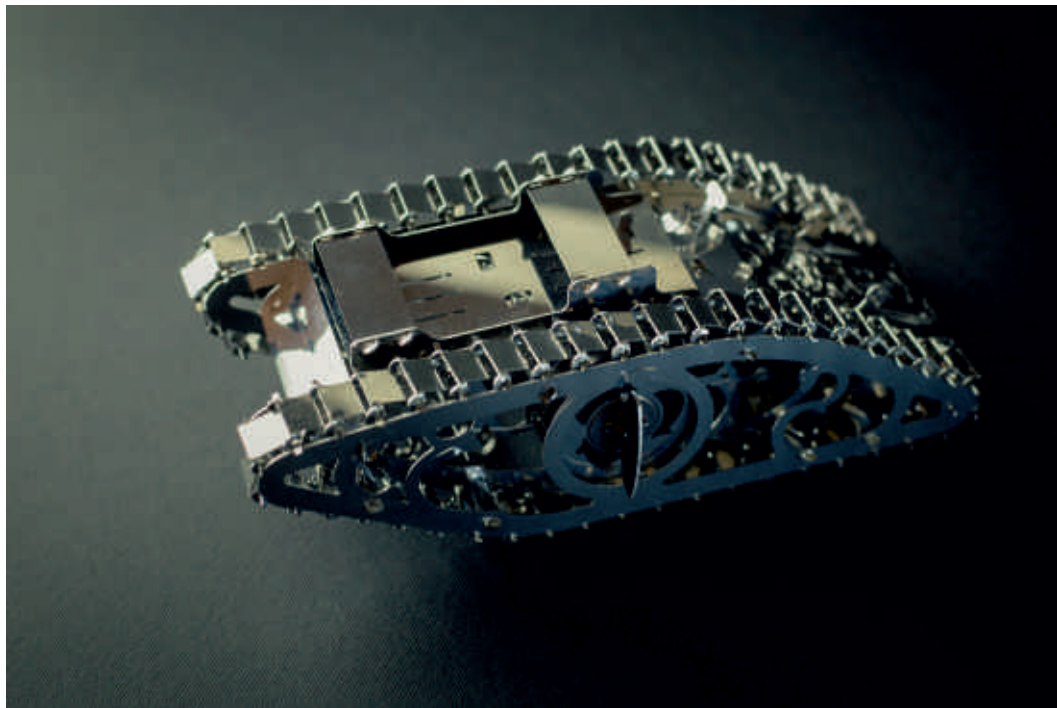

So we launched Time for Machine project to establish a new trend in the world of construction kits and become a new standard of mechanical modeling.

Every our idea was thoroughly thought through by our dedicated team of professionals:

we considered even the smallest details so you can get the maximum pleasure out of the project - your own handmade miracle.

We are happy to invite you to enjoy the atmosphere of the industrial epoch together with us!

# METAL MODELS

MARVEL TANK

## QUICK OVERVIEW:

Metal mechanical model;  
DIY self-assembly kit;  
Variable speed;  
Tank tracks can be activated and deactivated;
