# WHAT IS AN ESCAPE ROOM?

An escape room is a game where you are locked in a room and have to find clues and solve puzzles to get out. At Escape Rooms Vallarta we take these experiences to another level, adapting mechatronic systems to make the experiences even more fun, interactive and professional. It is a great way to test your problem-solving skills and have a lot of fun. Escape rooms are an excellent activity for groups of friends, family, or co-workers. They are perfect for birthday parties, team-building exercises, or a fun night out.

# INSIDER OF ESCAPE ROOMS

This escape rooms use a variety of technology to create a unique experience for participants. This include audio effects, interactive mechanical and electric elements, and a good storytelling. This rooms use sensors or triggers to activate devices in response to players' actions.

This creates an immersive environment that can transport players into the story and make them feel like they are part of the action. In addition to the use of technology, escape rooms often require team work and communication in order to solve puzzles and progress through the game.
